The Mint of Poland presents a unique **set of silver coins** of the popular "**Amber Route**" series.

The set consists of the following coins: **Kaliningrad, Gdańsk, Wrocław, Elbląg, Stare Hradisko, Szombathely, Carnuntum and Aquileia** and is released in a limited number: **39 pieces**.

Offered in an exclusive presentation case, these charming coins with an amber insert are accompanied by a common Certificate of Authenticity of the Mint of Poland.

The Amber Route was an ancient commercial route that connected the European states at the Mediterranean Sea and the lands on the southern shore of the Baltic Sea, and was named after the major object of travelers' desire, amber. Our coins pay tribute to the main cities which lay along it.
